

Intercomp

AX900™ Portable Axle Scale

Intercomp's low profile, portable axle scale gives you the accuracy to weigh most any over the road vehicle. Its ultra lightweight design (only 400 lbs. per platform) makes this portable scale easy to set up. Each scale system comes complete with high strength aluminum ramps and Intercomp's PT20 Axle Weigher indicator. This digital battery operated indicator has a built-in charger, printer, jumbo sized display, memory and numerous other standard features.

Specifications:
